

Point-of-Care Tablets

Let's walk you through the Stat point-of-care tablet experience and its features—from real-time room and staff status to appointment details—all designed to keep your team aligned and your workflows flowing.

Features and Functions

Room Status & Appointment Details

Displays the room name and color indicators to show current room occupancy along with customizable HIPAA-compliant data like: patient name, DOB, MRN, appointment date, and time.

Room Assignment

Displays assigned providers and staff photos for the specific room.

Cycle Times

Shows total appointment time, including time with provider, staff, and time alone.

Active Workflows

Displays the next pending action(s) needed for the appointment.

Team Member Location Status

Shows photos of team members currently in the room; blue outlines for providers, green for staff.

Workflows

Instant communication of routine actions to improve efficiency, safety, and patient experience.

Sample Workflows

- MA/Nurse/Provider Needed**
Allows staff to request assistance, without leaving the room.
- Request Labs**
Communicate the need for staff to gather resources for lab work.
- Code Blue**
Triggers an alert across tablets and Flowstations directing staff to the room.

Exam 13

F Lawrence | 3:15pm | 9/24/2025

Total 10 Provider 2

	MA	

3:21:23pm
9/24/2025

Tablet Lighting Statuses

Tablets outside of exam rooms include built-in status lights that update automatically based on real-time activity. This gives you instant visual cues to know what's happening in each room without disrupting care.

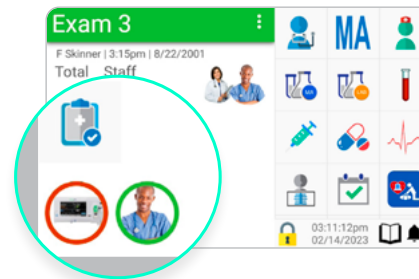

- GREEN** Support Staff in Room
- BLUE** Provider in Room
- PINK** Waiting for Provider
- YELLOW** Room on Hold
- RED** Patient is Alone
- WHITE** Room is Empty

Using the Tablet

Sample Appointment Flow

Step 1 Staff taps the exam room banner and selects the correct patient from the list of patients in the waiting room. Staff then taps "Add Patient".

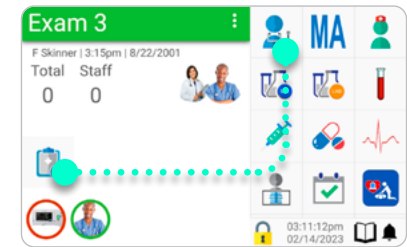

Step 3 After intake, staff clears the "Intake" workflow and taps the "Ready for Provider" workflow before leaving the room.

Step 5 If follow-up or further workflows are not needed, the provider/staff checks the patient out by tapping the exam room banner and selecting the green "Check-Out" button.

Step 2 The intake icon appears on the tablet. As staff enters the room, his/her image also appears.

Step 4 The provider enters the room, treats the patient, and taps the needed workflow icons to communicate the patient care plan.
